Plot for dataset A (Laplace)

Probability Plot

This plot is the best fit plot because the red line and the blue dots are pretty close on the plot compare with other plots.

Plot for dataset B (Exponential)

Probability Plot

This plot is the best fit plot because the red line and the blue dots are pretty close on the plot compare with other plots, and it have the least outliers.

Plot for dataset C (Norm)

This plot is the best fit plot because the red line and the blue dots have the same slope, and it have the least outliers.
